

AI Models

#	Provider	Model	Release Date	Cutoff Date	Cost (per 1M tokens)	Context Window	When to Use
1	OpenAI	GPT-5.5	23-Apr-2026	Dec-2025	~\$5 / \$30	~1M	Used for complex reasoning, advanced writing, and multi-step problem solving (e.g., intelligent assistants, decision-making systems)
2	OpenAI	GPT-5.4	Mar-2026	Aug-2025	~\$2.5 / ~\$15	~256K	Used for task automation and workflow execution (e.g., organizing data, performing multi-step actions)
3	Anthropic	Claude Opus 4.7	16-Apr-2026	~Oct-2025	~\$5 / \$25	~1M	Used for deep analysis and long-document understanding (e.g., reading large reports, detailed reasoning)
4	Anthropic	Claude Opus 4.6	05-Feb-2026	~Oct-2025	~\$5 / \$25	~1M	Used for structured reasoning and complex problem solving (e.g., step-by-step planning, logic-driven tasks)
5	Anthropic	Claude Sonnet 4.6	17-Feb-2026	~Oct-2025	~\$3 / \$15	~500K	Used for balanced tasks like chat, content generation, and moderate analysis
6	Google	Gemini 3.1 Pro	19-Feb-2026	Dec-2025	~\$2.5 / \$10	Up to 2M	Used for multimodal processing (text, images, videos) and large dataset

							analysis
7	Google	Gemini 3 Flash	Jan-2026	Dec-2025	~\$0.10 / \$0.40	~1M	Used for fast responses and high-volume applications (e.g., chatbots, real-time systems)
8	Zhipu AI	GLM-5.1	Apr-2026	Not disclosed	~\$1.4 / \$4.4	~200K	Used for research tasks and logical reasoning-based outputs
9	DeepSeek	DeepSeek V3.2	12-Feb-2026	Sep-2025	~\$1-\$3	~1M	Used for cost-efficient large-scale processing (e.g., bulk content generation, data processing)
10	Google	Gemini 2.5 Pro	2026 usage	Not disclosed	~\$1-\$5	~1M	Used for enterprise applications and structured data analysis (e.g., business insights, reporting)
